The copy filmed here has been reproduced thanks to the generosity of:

Metropolitan Toronto Reference Library
Business and Social Sciences Department

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol —> (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Reference Library
Business and Social Sciences Department

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole —> signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaires. Les diagrammes suivants illustrent la méthode.

in the World.

MANUFACTURED ONLY BY

The Gutta Percha and Rubber Manufacturing Company,

Adopted by the Dominion and Ontario Governments, and is now in use in all the principal Fire
Departments in Canada.

SPECIAL ADVANTAGES.

- First—The Hose is made of the finest quality of Rubber and Cotton Duck of the greatest possible tensile strength, woven for the exclusive use of this Company.
 - Second—It is effectually preserved from rot and decay by being charged with Carbolic Acid.
 - Third—The ends are made extra heavy, and strengthened, so as to successfully resist the force they are exposed to.
 - Fourth—The ends are hermetically capped, thus excluding all air and moisture from the Cotton Duck.
 - Fifth—The Hose will not contract or twist, but, under pressure, has the quality of elongating about 20 inches to 50 feet section.
- Garden Hoses, Hydraulic Hoses, Patent Carbollized Steam Fire-Engines Hoses, Brewery Hoses, Air Brakes Hoses, Tank Hoses, Gasoline Hoses, Steam and Petroleum Oil Hoses, Baling, Sheet Packing, Square and Round Packing, Pure Sheet Rubber, Valves, Gaskets, Rings, Waggon Springs, and all Vulcanized Rubber Fabrics adapted to mechanical purposes.
- We have on hand at our warehouse, in Toronto, a Large Stock of above goods, of our own manufacture, and are prepared to fill orders same day as received.

TARIFF

OF
CUSTOMS OF THE DOMINION OF CANADA

AS IN FORCE

ON AND AFTER THE 16TH MARCH, 1879,

With all the Amendments and Alterations to 1st August, 1879.

Resolved, that it is expedient to provide that the value of all bottles, flasks, jars, demijohns, carboys, casks, hogsheads, pipes, barrels, and all other vessels or packages manufactured of tin, iron, lead, zinc, glass, or any other material, and capable of holding liquids; crates, barrels, and other packages containing glass, china, crockery or earthenware, and all packages in which goods are commonly placed for home consumption, including cases in which bottled spirits, wines or malt liquors are contained, and every package being the first receptacle or covering enclosing goods for purpose of sale, shall in all cases not otherwise provided for in which they contain goods subject to an *ad valorem* duty be taken and held to be part of the fair market value of such goods for duty. And when they contain goods subject to a specific duty only, such packages shall be charged with a duty of Customs of twenty per centum *ad valorem*, to be computed upon their original cost or value. And all or any of the above packages described as capable of holding liquids, when containing goods exempt from duty under this Act, shall be charged with duty of twenty per centum *ad valorem*. But all packages not hereinbefore specified, and not specially charged with duty by any unrepealed enactment, and being the usual and ordinary packages in which goods are packed for exportation only, according to the general usage and custom of trade, shall be free of duty.

Resolved, That it is expedient to provide that on all goods imported into Canada subject under this Act or any other Act to an *ad valorem* duty upon which a drawback of duties has been allowed by the Government of the country where the same were purchased, the amount of such drawback shall in all cases be taken and considered to be a part of the fair

market value of such goods, and duty shall be collected thereon. And in cases when the amount of such drawback shall have been deducted from the value of such goods upon the face of the invoice under which entry is to be made, the collector of customs, or proper officer, shall add the amount of such deduction and collect and cause to be paid the lawful duty thereupon. And the fair market value of all goods, wares and merchandise imported into Canada shall be understood to be the ordinary wholesale price at which the same are sold for home consumption in the country where they are purchased, without deduction of any kind because of any drawback paid or to be paid thereon, or because of any special arrangement between the seller and purchaser having reference to the exportation of such goods or the exclusive right to territorial limits for the sale thereof, or because of any royalty payable upon patent rights, but not payable when goods are purchased for exportation or on account of any other consideration by which a special reduction in price might or could be obtained. Provided that nothing herein shall be understood to apply to the general fluctuations of market values.

Resolved, That it is expedient to provide that any or all of the following articles, that is to say, animals of all kinds, green fruit, hay, straw, bran, seeds of all kinds, vegetables, including potatoes, and other roots, plants, trees and shrubs, coal and coke, salt hops, wheat, peas and beans, barley, rye, oats, Indian corn, buckwheat, and all other grain, flour of wheat and flour of rye, Indian meal and oatmeal and flour, or meal of any other grain, butter, cheese, fish, salted or smoked, lard, tallow, meat, fresh, salted or smoked, may be imported into Canada free of duty or at a less rate of duty than is provided by this Act upon proclamation of the Governor-in-Council, which may be issued whenever it appears to his satisfaction that similar articles from Canada may be imported into the United States free of duty, or at a rate of duty not exceeding that payable on the same under such proclamation when imported into Canada.

Resolved, That it is expedient to provide that if at any time any greater duty of customs should be payable in the United States of America on tea or coffee imported from Canada than on tea or coffee imported from any other country, then the Governor-in-Council may impose on tea or coffee imported into Canada from the said United States an additional duty of customs equal to the duty payable in the United States on tea or coffee imported from Canada. Provided that the tea or coffee imported into Canada from any country other than the said United States, but passing in bond through the United States, shall be taken and rated as a direct importation from the country, wherever the tea or coffee was purchased.

Resolved, That it is expedient to provide that an allowance may be made for deterioration by natural decay or breakage upon all perishable and

brittle goods imported into Canada, such as green fruits and vegetables, crockery, china, glass and glassware. Provided such damage is found to exceed 25 per centum of the value thereof upon an examination to be made by an appraiser or proper officer of Customs at the first landing, or within three days of such landing. But such allowance shall be only for the amount of loss in excess of 25 per centum of the whole quantity of such goods contained or included in any one invoice; and provided the duty has been paid on the full value thereof, a refund of such duty may be allowed and paid in the proportion or fulfilment of the conditions above specified, but not otherwise, on application to the Minister of Customs.

Resolved, That it is expedient to provide that in determining the suitable value of merchandise there shall be added to the cost or the actual wholesale price, or fair market value at the time of exportation in the principal markets of the country from whence the same has been imported into Canada, the cost of inland transportation, shipment and transshipment, with all the expenses included from the place of growth, production or manufacture, whether by land or water, to the vessel in which shipment is made either *in transitu* or direct to Canada.

Resolved, That it is expedient to provide that the Governor-in-Council shall, from time to time, establish such regulations, not inconsistent with law, as may be required to secure a just, faithful and impartial appraisal of all goods, wares and merchandise imported into Canada, and just and proper entries of the actual or fair market value thereof, and of the weight, measures, or other quantities thereof, as each case may require; and such regulations, whether general or special, so made by the Governor-in-Council, shall have the full force and authority of law. And it shall be the duty of the appraisers of Canada and every of them, and every person who shall act as such appraiser, or of the collector of customs, as the case may be, by all reasonable ways and means in his or their power to ascertain, estimate and appraise the true and fair market value and wholesale price, any invoice or affidavit thereto to the contrary notwithstanding, of the merchandise at the time of exportation, and in the principal markets of the country whence the same has been imported into Canada, and the proper weight, measures or other quantities, and the fair market value or wholesale price of every of them, as the case may require.

Resolved, That it is expedient to provide that no refund of duty paid shall be allowed because of any alleged inferiority or deficiency in the quantity of goods imported and entered and which have passed into the custody of the importer under permit of the Collector of Customs, nor because of the omission in the invoice of any trade discount or other matter or thing which might have the effect of reducing the value of such goods for duty, unless the same shall have been reported to the Collector

of Customs within ten days of the date of entry and the said goods shall have been examined by the said Collector, or by an appraiser, or other proper officer of Customs, and the proper rate or amount of reduction certified by him after such examination. And if such collector or proper officer reports that the goods in question cannot be identified as those named in the invoice and entry in question, then and in such case no refund of the duty, or any part thereof, shall in any case be allowed. And all applications for refund of duty in such cases shall be submitted with the evidence and all particulars for the decision of the Minister of Customs, who may then order payment on finding the evidence to be sufficient and satisfactory.

Resolved, That it is expedient to repeal all acts and parts or schedules of acts, and all orders in Council, imposing any duties of customs upon goods, wares and merchandise, or providing for the exemption of goods, wares and merchandise from customs duty when imported into Canada, and to make the following provisions in lieu thereof—

Resolved, That it is expedient that the following articles shall be subject to the several rates of duty, or shall be exempt from duty as set opposite to each respectively.

BRYCE, McMURRICH & CO.,

IMPORTANT TO Sewing Machine Purchasers !

Office of the Crompton Corset Co., 78 York St.,

TORONTO, July 24, 1879.

Rev. D. Barker, Chatham, Ont.

DEAR SIR,—Up to the present time, we have purchased fifty-five No. 8 Wheeler & Wilson Machines; twenty-five we had at our dissolution; we have thirty in addition in our present place, York Street, and expect to add from eight to ten this fall.

After a fair trial with the Singer and others, we have no hesitation in saying that the No. 8 Wheeler & Wilson is far superior to the N. Y. Singer, in fact, there is no comparison between the two, when speed, durability, economy, and regularity in work is required. It would not pay us to use the Singer Machine if we got them without charge.

The N. Y. Singers which we had we jobbed off for ten dollars each, and were glad to get rid of them at any price.

We have no object in saying anything in favor of the Wheeler & Wilson; if there was any better machine in the market we would purchase it, as it would not pay us to run any other than the best. The machine which will run at the greatest speed, and at the same time be most durable, we find the cheapest in the end.

We came to this conclusion after four years' test, and we think it is the general opinion of corset-makers.

We remain, yours truly,

Crompton Corset Co.,

F. CROMPTON.

P. S.—Our machines are set, and we run at about 900 stitches per minute, but they will run at about 1,000 per minute.

Send for Circular, or call at our Office and examine styles.

ALE, BEER AND PORTER, barrels containing bottled ale and porter are considered packages for exportation only, and therefore free of duty.

MEMO'S FOR IMPORTERS.

AFFIDAVITS—In all cases in which affidavits are made on an entry to cover the admission of goods at special rates for special purposes—such as cordage for ship purposes, coutille and horn strips for corset manufacture—the Entry Clerk should attach a memorandum of the fact to the invoice for the information of the Appraiser; and in all cases in which articles are imported for such special uses, such as for the "fisheries" for "ships use, corset making, &c.," the importer's own affidavit should declare that they will be actually used for such purpose and none other.

DISCOUNTS FOR CASH—Invoices of DRY GOODS representing less than a credit of 60 days shall be considered cash values, and shall be subject to such addition as may be necessary to bring them to the fair market credit values.

EXPORT DUTY forms part of the value for duty; and in sugar invoices is not to be considered as an expense on where duty is to be remitted in cases of direct importation.

INVOICES—No alteration in, will be allowed on the part of the Importer or Customs Officer, whether in regard to Trade discounts or any other matter.

INVOICES—Press copies or duplicates will not be accepted. The original will be insisted upon as required by law.

INVOICES—The widths of all goods paying a specific duty (square measure) should be upon the Invoices.

The weights of all goods paying specific duty (by weight) should be upon the invoices, weight being on or opposite each line.

All goods where the material of which they are chiefly made is not clearly stated, should say on the invoice, viz.: wood, tin, leather, wire, brass, paper, and such like, considerable difficulty and time would be saved by adopting this plan.
